

# Sweet Potato

**Scott Farms** is a 6th generation family farm based in Lucama, North Carolina growing sweet potatoes, wheat, soybeans, and corn. Linwood “Sonny” Scott, Jr, along with wife, Alice Scott, & sons, are co-owners and the backbone of the modern farming, production, and packing operations.

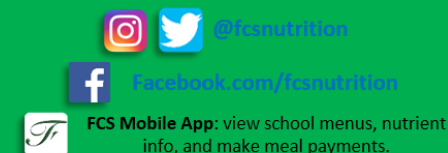

- Sweet Potatoes are members of the bindweed family.
- Sweet Potatoes are a root vegetable, unlike regular potatoes, which are tuber vegetables.
- Sweet Potatoes grow underground and produce a trailing vine above ground with purple flowers.
- Orange-fleshed Sweet Potatoes are sweeter than other colored varieties.

★ Sweet Potatoes are packed with vitamin A and potassium!

**Locally grown Sweet Potatoes served in your café this November!**
